

Press release

Datum: 19/09/2022

Incredibly good-looking:

Amply equipped roller cabinet with a brilliant front design in absolute top quality.

Wuppertal. This roller cabinet is a number 1 eye-catcher!

Not only is the design a real feast for the eyes, the technology of the new Tool Rebel roller cabinet is also an absolute hit.

Five flat and two high drawers ensure efficient, mobile organization of tools and materials. Thanks to its double-walled design and a completely welded construction of the entire body the cabinet is extremely robust. Two flat drawers are already equipped with four Wera foam inserts and tools such as one Zyklop Speed ratchet and accessories, Kraftform screwdrivers and L-keys.

But that's not all. A total of 17 equipped foam inserts are available. Due to the two-coloured nature of the high-quality inserts, any missing tools are quickly noticed.

The drawers are moved on ball bearing telescopic slides and can be pulled out completely. The risk of tilting over is minimized thanks to the drawer stop - only one drawer can be opened at a time.
